Portfolio

SUMMARY

B.Tech graduate in Artificial Intelligence and Data Science with a strong foundation in machine learning, data analysis, and secure system design. Brings a sharp eye for UI/UX, blending analytical thinking with user-centered design to craft intelligent, intuitive digital experiences. Eager to contribute and grow in a dynamic, fast-paced environment that values innovation and continuous learning.

PROJECTS

1. Zero Trust Security Model for Secure User Access Control

- Designed and implemented a Zero Trust security framework integrating Multi-Factor Authentication and device trust verification for secure user access
- Built Role-Based Access Control (RBAC) to manage permissions across user roles
- Developed an Isolation Forest-based AI anomaly detection engine with continuous session monitoring to identify suspicious activity in real time
- Tools: React.js, Node.js, Python, scikit-learn, PostgreSQL, Supabase.

2. Customer Churn Prediction & Analysis Dashboard

- Built an end-to-end data analytics pipeline to predict customer churn using exploratory data analysis and feature engineering
- Trained and evaluated classification models to identify key churn drivers and at-risk customer segments
- Designed an interactive dashboard to visualize churn trends and support data-driven retention strategies
- Tools: Python, Pandas, scikit-learn, Power BI/Tableau, SQL

3. Still Brew — Coffee & Matcha Brand Website (UI/UX Design)

- Designed a full brand identity for a coffee and matcha concept including logo, typography, colour palette, and visual guidelines
- Created high-fidelity wireframes and interactive prototypes in Figma to showcase the website layout and user flow
- Crafted a cohesive visual identity system including logo placement, imagery, and micro-interactions to reflect the brand's artisanal, cozy feel
- Conducted usability review and iterated on the design based on feedback to improve navigation and overall user experience
- Tools: Figma, Canva, SVGator

EDUCATION

B.TECH 2022-2026

Artificial Intelligence & Data Science

C.K. College of Engineering and Technology — CGPA: 8.3/10

HSC, 2022

St. Anne's Girls Higher Secondary School — 12th HSC: 77.17%

SSLC, 2020

St. Anne's Girls Higher Secondary School — 10th SSLC: 88.8%

SKILL

- Python
- Artificial Intelligence
- Machine learning
- Data Analytics
- SQL
- UI/UX Design (Figma)
- RBAC & Security Systems
- NLP
- Cloud Computing
- Analytical Thinking
- Adaptability

CERTIFICATIONS

- Foundations: Data, Data Everywhere — Coursera
- Getting Started with Python — Coursera
- Google UX Design Professional Certificate — Coursera
- Artificial Intelligence & Machine Learning — Infosys Springboard
- Natural Language Processing — Infosys Springboard
- Digital Communication — Infosys Springboard
- Cloud Computing & AWS Fundamentals — Infosys Springboard

LANGUAGE PROFICIENCY

- English — Professional
- Tamil — Native
